Product Description

EMAX ES07V080V1, 7.5HP, Two-Stage Compressor, 80 Gallon, Vertical, 175 PSI, 1-Phase 208-230V

This Industrial Silent Air 7.5 HP 2 Stage V4 1 Phase Vertical 80 Gallon Piston Air Compressor is designed for up to 50,000 hours of commercial or industrial use with proper maintenance. This unit features our low RPM pumps and delivers 31 SCFM " 100 PSI. EMAX Compressors combine over 38 years of experience with the latest technology to deliver the best quality compressors. EMAX Compressor Tools and Equipment deliver

overwhelming performance to ensure that they meet the needs of even the most demanding environments. All products are designed with exacting tolerance and specifications to deliver all the power that is needed at the Jobsite, Garage or Shop for extreme performance. All EMAX piston pumps deliver big air and include steel connecting rods and removable disc valves. Air Stream Technology insures you will have the coolest, quietest air compressor in the industry. It includes an air compressor silencer that is designed to suppress operating noise level and also acts as a filtration system to prevent foreign matter from entering the intake. The EMAX Silent Air Industrial Air Compressor offers super-quiet low RPM with solid cast iron construction for extended life. The EMAX Compressor with built in Whisper 100 is an affordable solution to your piston compressor noise problem. The Whisper 100 dissipates compressor intake noise by channeling the intake air through a series of baffle plates and pre-filter media within the silencer cabinet. As a result, the piston intake noise is trapped and dissipated within the silencer structure. The compressor intake filters are also located inside the Whisper 100 cabinet which further enhances noise reduction. The Whisper 100 noise suppression system is compact in design and is located on the back of the compressor tank. Plumbing intake air transfer hoses from the compressor head/heads to the silencer. Our units is SUPER COOL & SUPER QUIET

Features:

- Piston series 2-stage cast iron pump rated at up to 50000 hours based on B-10 bearing life rating
- Ram-Tek solid steel, heavy gauge rods are built for maximum performance and durability
- Flow-Tek concentric disc valves deliver maximum performance and longevity
- 3 Year warranty
- Industrial-Duty, ODP 1750 RPM (not 3450 RPM) Name Brand Motor
- Gate valve oil drain provides quick, clean oil changes
- Tank Drain Pipe with ball valve for east & fast draining
- 3/4" Ball Valve Outlet on Receiver Tank
- Built in Inner-cooler and after cooler
- 26 SCFM " 175 PSI / 29 SCFM " 100 PSI
- Note: EMAX, A Division of Airbase Industries

Specifications

Weights & Dimensions

Length	39 in
Width	32 in

Height	76 in
Weight	950 lbs
Tank Size	80 gal
Tank Outlet	3/4"

Product Details

Oil Type	Oil Lubricated
Air Dryer	No
Oil System	Oil Lubricated
Pump Drive	Belt Drive
Pump Material	Cast Iron
Tank Drain Valve	Manual
Max PSI	175 psi
Phase	1
Tank Orientation	Vertical
Oil Sight Glass	Yes
Manufacturers Part Number	ES07V080V1
Pump Type	Two-Stage
Low Oil Shutoff	No
Brand	EMAX
CFM	29 CFM
Horsepower	7.5 HP
Color	Black
After Cooler	No
Voltage	208-230 V
Air Filter	No

Warranty

EMAX ES07V080V1, 7.5HP, Two-Stage Compressor, 80 Gallon, Vertical, 175 PSI, 29 CFM, 1-Phase 208-230V

Warranty	1 Year Standard, 5 Year Extended, Extended Lifetime Limted Pump warranty

Compliance & Certifications

Certifications	UL, CSA, ASME, ETL
