Global Industrial™ Forklift Pedestrian Safety LED Warning Spotlight, Blue

★★★★★ (50)

Ships Same Day

Product Description

✓ Bright blue LEDs show safe distance for pedestrians
✓ Water- & dustproof aluminum housing with polycarbonate lens
✓ Sold individually, but two are recommended

The Global Industrial™ Forklift Pedestrian Safety LED Warning Spotlight helps prevent potential pedestrian accidents by providing a visual warning for warehouse personnel by projecting a bright blue beam pattern onto the floor to alert workers of nearby forklift traffic

and avoid foot injury or collision from rear-end forklift swing. The bright blue Cree LED lights are powered by the vehicle's electrical system and can be installed on the front or back of any forklift, sweeper, AGV (automated guided vehicle), or other industrial vehicle. It is configured for 10 to 80 V DC input to be compatible with a wide assortment of electrical systems. To withstand hard & harsh warehouse environments, the light housing is made of lightweight and strong aluminum with a UV-protected polycarbonate lens. Sold individually, but two are recommended for maximum safety. CE, ROHS. Limited 1-Year Warranty.

- Two (2) blue Cree LEDs deliver 600 lumens
- Housing is shock-resistant and IP68-rated to be dust- & waterproof
- Reverse polarity protection prevents damage if installed incorrectly
- -35 To 85° F operating temperature range
- Mounting bracket hardware included
- No assembly required
