Global Industrial™ LED Forklift "Red Zone" Side-Mount Pedestrian Safety Warning Light

★★★★½ (2)

Ships Same Day

Product Description

✓ Bright red LEDs show safe distance for pedestrians
✓ Water- & dustproof aluminum housing with polycarbonate lens
✓ Sold individually, but two are recommended

The Global Industrial™ LED Forklift "Red Zone" Side-Mount Pedestrian Safety Warning Light helps prevent potential pedestrian accidents by providing a visual warning for warehouse personnel by projecting a bright red beam pattern onto the floor to alert workers

of nearby forklift traffic and avoid foot injury or collision from rear-end forklift swing. The bright red LED lights are powered by the vehicle's electrical system and can be installed on the side of any forklift, sweeper, AGV (automated guided vehicle), or other industrial vehicle. It is configured for 10 to 80 V DC input to be compatible with a wide assortment of electrical systems. To withstand hard & harsh warehouse environments, the light housing is made of lightweight and strong aluminum with a UV-protected polycarbonate lens. Sold individually, but two are recommended for maximum safety. Limited 1-Year Warranty.

- Six (6) bright red LEDs deliver 1600 lumens (11W)
- Housing is shock-resistant and IP68-rated to be dust- & waterproof
- -49 To 185° F operating temperature range
- Mounting bracket hardware included
- No assembly required
