Global Industrial™ 8' Rectangular Picnic Table w/ Seat Cushions, Perforated Metal, Black

★★★★★ (0)

Ships Same Day

Product Description

✓ Plush and fitted seat cushions for an extra layer of comfort
✓ Black thermoplastic coating resists corrosion, fading & heat accumulation
✓ Includes stainless steel hardware, (16) acorn safety caps, & (8) bag hooks

The black Global Industrial™ 8' Rectangular Picnic Table with Seat Cushions makes ideal dining furniture for any outdoor setting like public parks, schoolyards, campgrounds, and

restaurant patios. Tabletop and benches are made of a smooth, glossy thermoplastic exterior coating and are both UV-resistant to protect from fading. Engineered to withstand extreme summer heat & winter cold, and is thermal-stable to stay cool-to-the-touch even in direct summer sun. A center hole accepts umbrella poles up to 1-1/2" in diameter.

BUILT TO CARRY THE LOAD:

High weight capacities for the tabletop & benches ensure a safe & comfortable experience with a 900-pound capacity per bench and 1000-pound weight capacity for the tabletop.

COMFORTABLE, PLUSH SEATING:

The combination of thick cushions atop a smooth surface, beveled edges, rounded corners, help ensure a safe & comfortable experience. Each high-density cushion features resilient padding for lasting durability and comfort. To support comfort by design, the bench height measures 20" from the ground to make it easy to sit down & stand up.

RESISTANCE TO THEFT & VANDALISM:

Welded mounting tabs on the frame allow the table to be permanently anchored to concrete, asphalt, and other surfaces to deter theft. The punched hole pattern of the perforated metal makes an unappealing surface for graffiti and paint does not adhere well to the thermoplastic coating, making it easy to clean.

INDUSTRIAL STRENGTH:

Heavy-duty perforated metal mesh benches & tabletop promotes airflow, limits snow & dust accumulation and standing water. The perforations punched into the metal are precisely placed to avoid the edges and assembly points, providing additional strength with a clean & elevated look versus expanded metal. Heavy-gauge galvanized tubular steel frame is finished in a corrosion-resistant black powder coat. Stainless steel hardware won't rust or corrode over time and comes with plastic protective acorn nuts that prevent injuries from rubbing against exposed bolt ends.

- Limited 7-Year Warranty
- Pre-drilled mounting brackets included for fast, secure surface-mounting
