Product Description

The Forklift Spotter by Ideal Warehouse PEDESTRIAN WARNING FORKLIFT SPOTLIGHT

Help Prevent Personnel and Pedestrian Collisions!

The Forklift Spotter provides a visual warning for warehouse and shipping personnel by

projecting a bright blue spot beam pattern onto the floor, helping to promote greater workplace safety. Twin solid-state, shock-resistant, IP67 LED (Light Emitting Diode) lights and UV-resistant polycarbonate lens projects a visible blue spot ahead of the forklift to alert pedestrians of nearby forklift traffic. LED forklift safety light uses vehicle electrical power to operate and can be installed on the front and/or rear of any forklift, sweeper, AGV or industrial vehicle. The 30,000 hour service life LED's are mounted in a rugged aluminum housing for long life.

Note: Configured for 10 to 80 Volt DC input:
0.600 amps @ 10V DC
0.300 amps @ 24V DC
0.190 amps @ 36V DC
0.140 amps @ 80V DC

Specifications

Weights & Dimensions

Length	3 in
Width	5-3/4 in
