Global Industrial™ Panel Leg Workbench w/ESD Safety Edge Top & Power Apron, 72"W x 36"D, Gray

★★★★★ (0)

Available on or around 11/23/2026

Product Description

This workbench features an antistatic ESD square edge top. This self contained electronic workbench offers unequaled versatility and economy for precision fabricating and assembly work. It is designed for labs, cleaning stations, electronic assemblers, technicians, etc. An optional bench riser with power center adds storage space, keeps work surface clear and uncluttered and puts electrical power at your fingertips. The optional sliding drawer is lockable and handy for tools, supplies and other small items. The panel legs provide rigid

stability. This workbench is easy to assemble. The ESD square edge top is made of white plastic that prevents damage to sensitive electronic circuitry and complies with MIL-B81705B and 101B, 101C, Method 4046. The workbench is shown with a plastic laminate top, an optional power riser and a drawer.
