Spring Lift Platform for 20 bushel truck

★★★★★ (0)

Ships Same Day

Product Description

Platform Lifts are the efficient way to keep material moving towards the top of the truck as the product is removed. Ergonomically designed spring lift platform reduces need for operators bending and leaning into truck when unloading cargo. Spring lift platform is constructed of a powder-coated steel frame covered with an easy-to-clean white Glosstex vinyl coated nylon material. Stainless Spring 8.2"L x1.25"D with Nylon fabric cover. Sturdy 1/2 wire hooks.
